

Fleet Monitor

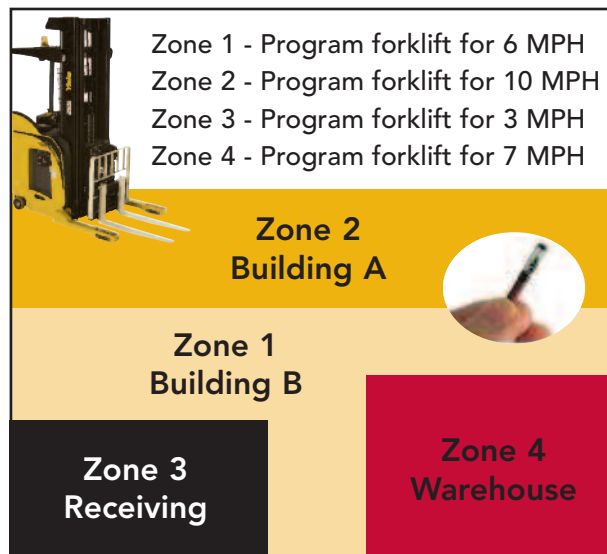

Return on Investment

- We can focus on many unnecessary safety risks relating to your fleet.
- PM service is done on time.
- Reduce equipment, property, and product damage.
- Reduce Workers Compensation.
- Reduce avoidable damage bills.
- Reduce fuel consumption.
- Speedshield requires no infrastructure cost, such as server or wireless receivers.

Fleet Online is Simple

- Install the Fleet Monitor, receive your online access codes, and you're away.
- The Fleet Monitor is a rugged wireless reporting module that communicates over a Cellular Network.
- The Fleet Monitor can transfer data from old and new vehicles.
- Paperless OSHA checklists starts reporting from the moment the unit is installed.
