Yale MPB040 Metal Handle Option

Date: 11/25/09

Product Newsletter: Yale MPB040 Metal Handle Option

Subject: Metal Control Handle Option

Model/ Series: MPB040-E (B827), MPW050-E (C802), MPW060-E (A897), MPW065-E (A894), MPW080-E (A891), MSW025-030-F (B895), MSW040-E (C820)

Effective immediately a new optional cast aluminum control handle is available on all walk behind low level pallet trucks and masted walkie stackers. First production begins on December 15, 2009 with shipments in January 2010. The price for this option is only \$160.

This new cast aluminum control handle option is being made available for those applications requesting a metal handle in lieu of the standard highly durable composite control handle.

Additional benefits of a Metal Control Handle

In addition to the cast aluminum control handle, this option includes a stronger 2"x2" handle tube and a larger gas return spring. The combination of these three elements will provide excellent durability.

INTERCHANGEABILITY

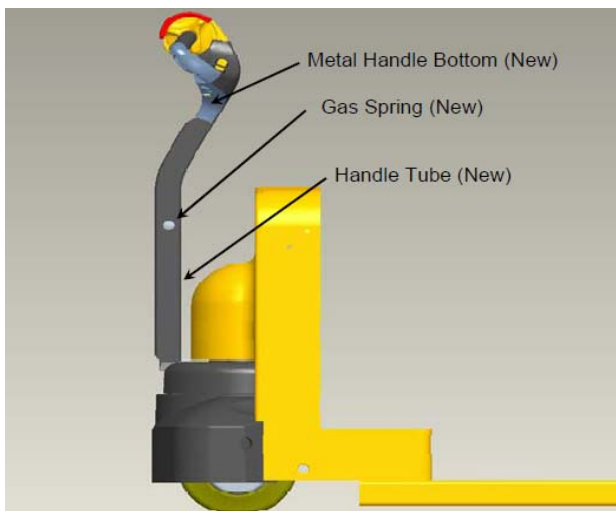

New cast aluminum control handle is **not** designed to be compatible with the standard 1 ½" x 2" composite handle tube. In addition, the new gas spring should **not** be installed into a standard 1 ½" x 2" composite handle tube as the gas spring will interfere at the lower portion of the tube which could result in premature spring and or tube failure.

SERVICEABILITY

The serviceability of the cast aluminum control handle offers the same ease of serviceability of the composite handle design. The top handle cover with its electronics is easily accessed by simply removing three 5.5mm allen head screws.

CONVERSION KITS

Field conversion kits include a cast aluminum handle bottom, 2" x 2" handle tube, a larger gas shock and installation instructions. The part number for the Walkie Metal Handle kit is P/N 550010159. The part number for the Masted Walkie Stacker Metal Handle kit is P/N 550010160.

We offer Customized Solutions

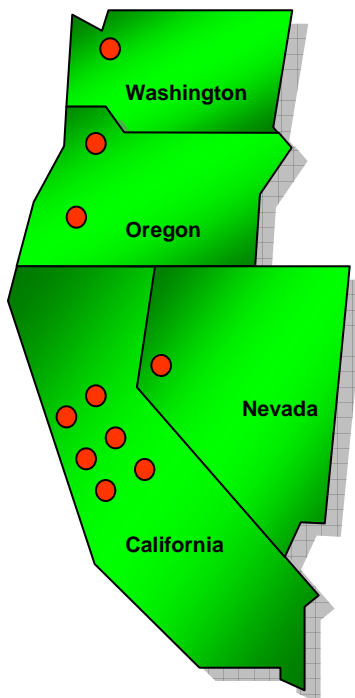

Product Support, Facilities, Energy, Material Handling, Fleet Management, Human Resources, Technology, and Environmental Sustainability

Pacific Material Handling Solutions, Inc. (PMHSI) was founded in 1993 and is a privately owned fleet management and material handling dealership headquartered in Hayward, CA. We have branch operations throughout Northern California, Northern Nevada, Oregon, and Washington.
